? Frequently Asked Questions

No connection to internet?

Make sure that the internet modem has been connected as shown in step 1, and that the device you are using (PC, smart phone etc.) is connected to the EAGLE 1000. Reboot your internet modem by switching it off, and then on again. Wait for 5 minutes before checking your internet connection.

Why is my wireless network unstable/slow?

Most likely this is due to interferences from other wireless networks in your area. The solution is to change the wireless channel on the EAGLE 1000. Please look at the EAGLE 1000 manual you find at www.jensenofscandinavia.com/downloads

How do I reset the EAGLE 1000?

Press the WPS/RESET button for 30 seconds.

What is my username and password to the EAGLE 1000 settings menu?

URL: <http://192.168.38.1>

Default username = admin

Default password = 1234
