The exclamation point wit in an equilateral triangl is intended to alert the user of the presence of imporant operating and ma ntenance (servicing) inst uction in the literature accompanying the appliance.

INVISIBLE EXPOSURE WHEN OPEN AND WHEN INTERLOCK
FAILED OR DEFEATED.
AVOID DIRECT EXPOSUER TO THE LASER BEAM.

ML10200

Do not move the player during playback

During playback, the disc spins at high speed, so do not lift or move the player. Doing so may damage the disc.

Place of installation

Select a stable place near the TV or stereo system to which you are going to connect the player. Do not place the player on the top of a TV or color monitor. Install the player away from cassette decks decks or other devices which are easily affected by magnetic forces.

Do not place objects on top of the player

Do not place any objects on top of the player.

Turn off the power when not using the player

If the player is connected to your TV but not in use then switch the power off this will prevent interference with your normal TV picture. Noise problems may also be experienced if used near a radio.

Special note regarding use of player in vehicles

When carrying on planes

Read the airline company's rules.

When carrying in hospitals

Read the hospital's rules.

AC/DC Adapter using.

■ Please remove the AC/DC adapter or switch off the power supply before cleaning the unit.
■ Please remove the AC/DC adapter when it is shining.
■ AC/DC is used in 110~240V AC.
■ Please remove the AC/DC adapter or switch off the power supply if you do not use this DVD player for a long time.

ML10200

When using with car power cable in cars

Please turn on the engine and then connect with the car power cable.

Cleaning the player

To clean dirt off the liquid crystal display, wipe the display gently with a soft, dry cloth(such as an eyeglass cleaning cloth). Note that leaving water droplets on the display for long periods of time may result in discoloration or stains. For tough dirt, use a commercially available liquid crystal display cleaner.

Copyrights

Unauthorized duplication, broadcast, public performance or rental of discs is prohibited by law.

ML10200

After unpacking, check that all the accessories listed below are included.

AC-DC power adapter	Car power supply cable	AV cables
IR Remote Control	Earphone	Carry bag

Precautions

■ Please pull out the PVC before the remote control unit is being used the first time
■ Don't drop or step on the remote control unit or subject it to shocks
■ Note that it may not be possible to operate the main unit if there are obstacles between
  it and the remote sensor
■ Don't expose the remote sensor to strong light.
■ Use the remote control unit within the specified operating range and angle.

Replacing the button-type battery (included)

*1* Insert your finger nails into A and B on the diagram below, press A according to the direction, then pull out the battery holder.

2 Remove the old battery, then insert the new battery into the battery holder with the + side facing up .

Lithium battery (Cr2025)

3 Fit the battery holder back to its place.

Note:

To prevent leakage of fluid from the lithium battery, remove the battery when not using the remote control for a long time (one month or more). If the battery leaks fluid, carefully wipe it out of the battery case, then change a new one.

ML10200

Precautions

■ Please fully charge the battery before the first time.

■ The battery may not recharge fully when it is in a hot environment.

■ It's normal that the battery unit temperature is about 20℃ higher than the surrounding temperature during a recharge.

Battery storage

■ Please place the battery in a proper environment (-5℃~35℃).

■ Please recharge once a month if the battery is not used for a long time.

Battery life

■ The battery unit can be used for about 300 cycles of recharging and operations, though this is variable depending on the operating conditions.
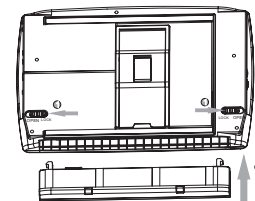

Using the battery

■ The picture may be unstable if the battery power is not enough.

■ Please recharge the battery when the main unit is powered off. The battery recharge will take about 4 to 5 hours.

■ When the battery power is depleted, OSD will show out"WARING LOW BATTERY".

ML10200

Installing the battery

Please install the battery unit as following:

1. Attach the battery unit to the main unit.

2. Pull the lock button to left and right as follow arrow 1, until the battery unit is locked to the main unit.
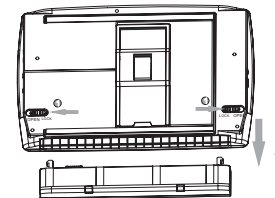

3. Then the power LED indicator is light on.

Removing the battery

Please remove the battery unit as following:

1. Turn off the main unit
2. Press the battery lock key and pull down the battery unit, then the battery is removed.

Note:
   Please turn off the player before installing and removing the battery.

ML10200

Recharging the battery by using AC-DC adapter

Please recharge the battery as follows:

    1 Install the battery
    2 Connect the AC-DC adapter to the player
■ When charging, the charge LED indicator lights up
  and keeps blinking. (Green)
■ When the battery is full, the LED indicator is green.
■ The charging time is around 4 to 5 hours. (Player is
  powered off)

Note:
■ Please place the battery on a level, flat surface
  for recharging.
■ Failure to do so may cause the battery short circuit.

1

2
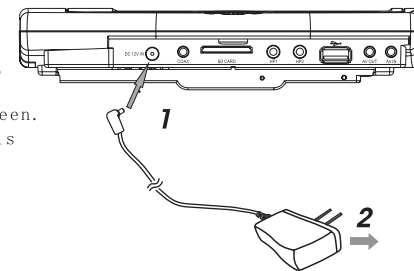

Cautions

■ The temperature during recharging affects the recharging efficiency.

■ Recharging is most efficient between 0℃ and 45℃.

■ When the battery unit is hot, it may take longer than usual time to recharge it. Sometimes,
  it cannot be recharged when it's hot. Wait for the battery unit to cool down before recharging it.

ML10200

Using the AC-DC adapter

Connect the power cord to the DC IN
jack as shown in the illustration.
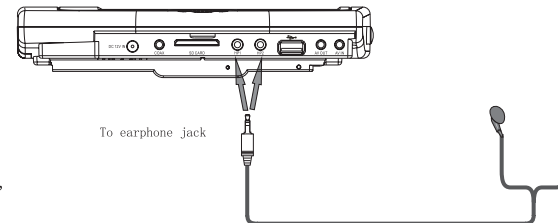

Note:
    AC-DC adapter specification: 12V/1.5A
    Please use the adapter that is the
    standard accessory of the main unit.
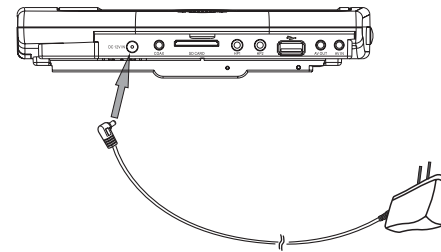

Using the earphone

■ Connect the earphone plug securely to
   the earphone jack on the main unit.
■ Using +/- to adjust the volume.

Note:
    Please do not play DTS disc.It will
    produce some strong noises.

   Insert the earphones plug securely ,
    otherwise sound will not be heard.

To earphone jack

ML10200

Connecting to USB storage

1 Please connect the USB storage
  to the USB terminal of the main
  unit
2 The main unit can read the
  contents in the USB storage
  automatically

Note:
- The USB terminal of the main unit
  support USB.
- The main unit can read the contents
 of USB storage when there is no disc
  in the main unit.

USB storage
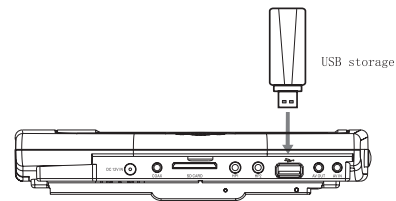

Connecting to memory card (SD/MMC/MS)

1 Please insert the memory card to the
  memory socket of the main unit
2 The main unit can read the
 contents in the memory card
  automatically

Note:
- Please insert the memory card in
  right direction.
- The main unit can read the contents
  of memory card when there is no
  disc in the main unit.

Troubleshooting

Please refer the following instruction when there are some problems with this unit. If the problem still exit, please consult your nearest service center.

Problem	Remedy
No power	• Insert the power plug securely into the DC IN jack. • Recharge the battery.
No audio at Digital Output	• Check the digital connections. • Check if the audio format of the selected audio language matches your receiver capabilities.
The player can not play	• Disc may have been placed in the tray upside down. • Player's region code should be the same as region code of DVD disc. • Disc should be clean or the disc is scratched. • This player cannot play discs other than supported by this player.
No sound	• Ensure that the equipment is connected properly and firmly into jacks. • Make sure the speakers are turned on. • If using a HiFi amplifier, try another sound source. • Check the Volume Adjustment.
The remote control does not work	• Check the batteries are installed with the correct polarity (+ and −). • The batteries are depleted: Replace them with new ones. • Point the remote control at the IR receiver window and operate. • Operate the remote control at a distance but no more than 5 meters from the IR receiver window.
